### Vision :

Eternal happiness of all living being, following the principle of Live & Let live.

### Mission :

Let all be Healthy. Let all be Happy. Let all be Educated. Let all be Employed.

### Philosophy :

Let Non-violence be the foundation & Compassion be the pillars.  
Let Humanity be its masonry & Selfless Service add the strength.  
Let Grace of God enable us to make every body Healthy and Happy.

### Goal :

1. Establish a multi disciplinary hospital at Idar to provide health care to the people of backward & tribal blocks of North Gujarat & South Rajasthan.
2. Welcome super specialists from higher centers to provide high tech services at base hospital & carry primary health care services to remote areas by establishing sub centers or through mobile medical van.
3. Establish schools & collages to provide nursing, paramedical & vocational & basic education.
4. Establish & support shelter houses (Panjarapole), hospital & Help line for animals.
5. Relief activities during natural disaster, efforts to preserve the environment, act for rural development & enable the disable.

### Strategy :

1. No one goes back totally untreated just because he has no money to pay.
2. Cure from illness & prevention of diseases is given equal importance.
3. In house treatment & out-reach activities go side by side.
4. Educate & enable local youth to get job or to be self-employed and
5. Provide qualified & skilled nurses & paramedics to medical fraternity.

### History :

“Shardaben” a school teacher, had heart attack. Though his son, Dr. Dinesh was a Surgeon in Government Hospital of IDAR she was shifted to Ahmedabad in a critical condition because of lack of proper facilities in IDAR.

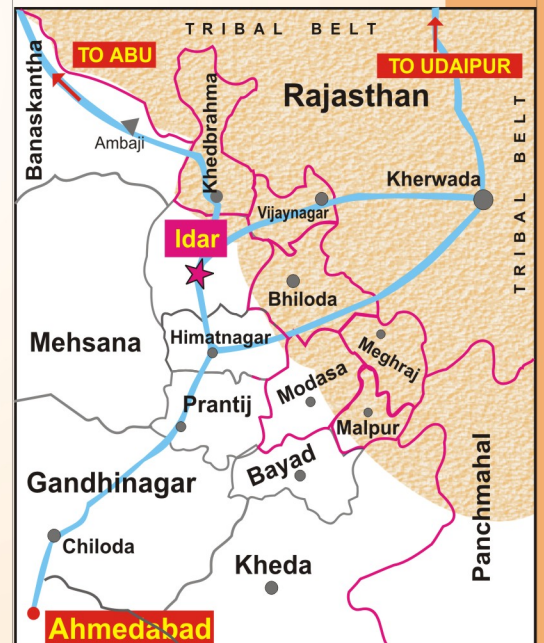

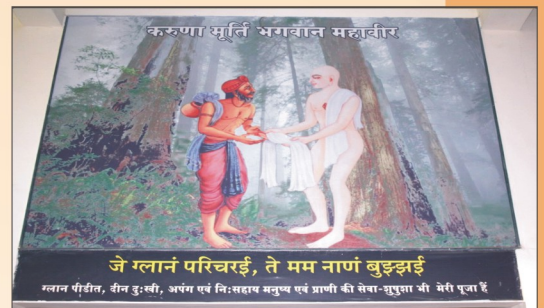

- ➔ **Self-experience of agony of helplessness awakened his dormant feelings to be a bridge between Have & Have not, Needy & Affluent, Rich & poor.**
- ➔ Dr Dinesh left government job and his parents donated their gratuity and provident fund to establish a charitable hospital which was dedicated to Jain Acharya Vijay Vallbhsuriji, the founder of Shri Mahavir Jain Vidyalaya which provided financial aid (loan) to Dr. Dinesh to be a doctor.
- ➔ Having established as a 10 bed surgical clinic on 06-02-1991 in rented building “**Atmavallabh Hospital**” has grew into a campus having 100 bed multi-specialty hospital affiliated with nursing and paramedical school, by generous support of local farmers and businessman, co-operative units and corporate establishments, social and charitable organizations, national and international NGOs and state and central government.

### Our Service Area :

Socio economically backward & tribal districts of Gujarat & Rajasthan (Sabarkantha, Banaskantha, Dungarpur & Banswara & Udaipur) of western India, lying between hills of Arravalli & tributaries of Sabarmati & Mahi river is our service area.

- More than 75% of population belongs to Schedule Tribes, Schedule class & O.B.C.
- Scanty rainfall & poor irrigation has ruined agriculture. Deforestation, lack of industries & inadequate education has left majority of population unemployed. **Average per capita income is just ₹ 12000 (250 US \$) per annum.**
- Poverty lead malnourishment. Unhygienic living condition & lack of safe drinking water has made this area endemic for all infectious diseases.
- In addition false beliefs, myth, bad habits, wrong traditions and poor health care Services has resulted into very high maternal & infant mortality rate & high frequency of blindness, disability, STDs & cancer in this area.

**As all the indicators of social & economical development i.e. Literacy rate, percentage of employment, per capita income, infant & maternal mortality rate is so poor that it is listed among the most backward districts of INDIA!!!**

# Campus of Atmavallabh Hospital & Nursing Institute

## Atmavallabh Hospital Campus - Vijaysamudranagar

is located on state highway easily approachable from all directions. It has...

- Centrally located hospital building accommodating 100 patients,
- backed by a building for nursing school providing training to 200 students
- Flanked with hostels for girls & boys and quarters for doctors, faculties & staff.

### Three storied hospital building has

- \* OPD, Administrative wing, Diagnostic and Emergency unit on ground floor.
- \* Five Special, Five Semi-special & Five General wards on First floor
- \* Four Operation Theatres, post-operative rooms & wards on second floor.

### Quality services are rendered without distinction of caste, creed or color by

- ⚙ **Full time** : Physician, Surgeon, Gynecologist, Dentist, Eye & Orthopedic Surgeon & M. O. provide equal services to both paying & non paying patients.
- ⚙ **Visiting** : Pediatrician, Dermatologist, E.N.T-Onco-Uro-Plastic Surgeon, Anesthetist, Radiologist & Pathologist give their services at affordable cost.

### In house Diagnostic facilities includes

- Medical section equipped with ECG & Stress test.
- Surgical department equipped with endoscopes.
- Gynecology unit equipped with colposcope.
- Eye department has two eye chair units, Slit lamp with C.C.T.V. Auto-refractometer & A-scan. It has ND Yag laser machine too.
- Clinical laboratory equipped with Auto analyzer & cell counter.
- Radiology unit equipped with 300 MA X-ray & Ultra-Sound.

### Operation theater is our place of worship.

- 3 Operation theaters are equipped with Anaesthesia trolley, Defibrillator, Ventilator Multi-para monitor & C-arm with I.I.T.V. and central Oxygen supply.
- It has all necessary instruments for general surgery, gynecological, orthopedic & E.N.T. surgery including microscope, & setup for laproscopic Surgery.
- Two separate eye operation theaters are equipped with operating microscope & Phaco Emulsifier.
- **Blood Storage Center is a special features of our hospital.**

Everyday nearly 100 patients return home cured.

Every month 300 families greet their dear ones saved.

Every year 1500 operations save the live & relieves pain of people

Every year 2500 persons from pediatric to geriatric age group regain their vision.

**Their smiling faces, wet eyes & blessing hands gives us deep satisfaction.**

## Smt. Shantaben Shantilal Kothari Nursing Institute Smt. Nirmlaben Dineshbhai Shah GNM School Smt. Indiraben Kanubhai Shah ANM School

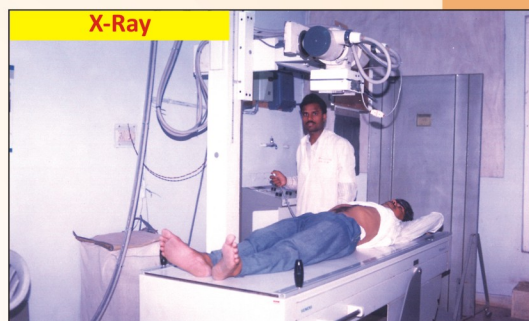

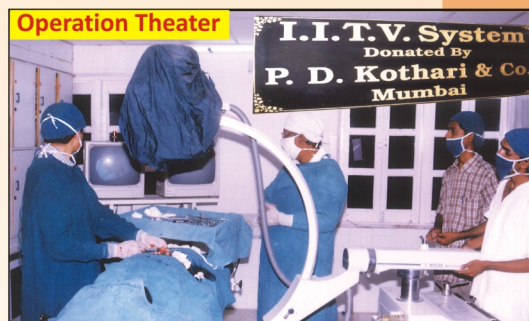

Three storied Nursing institute building has well ventilated & well equipped Principle & administrative office, Library, students room & Faculty rooms Six Class Rooms, Six Laboratories & Assembly hall.

The institute has manikin, birth simulator, necessary charts & models, audio visual aids, computer lab and other modern gadgets for quality teaching.

Other Paramedical courses like Medical Laboratory Technician, Hospital Assistant & Technician, Ophthalmic Technician & Health Sanitary Inspector are run in a separate building by qualified faculties.

Every year nearly 150 youth get qualified in nursing or paramedical education.

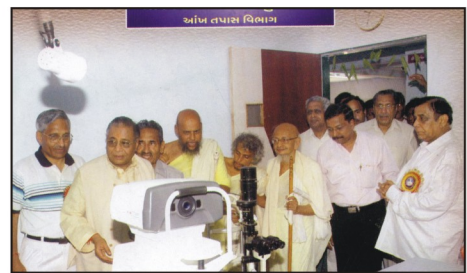

**Temple sited in N. E. Corner provides tranquility & serenity to the campus.  
Scientific approach and spiritual attitude is the open secret of our success.**

# Mobile Medical Unit to provide primary health care to remote tribal villages

**“DAYA”**  
Dispensary At  
Your Angan

## Care of sick, poor & disabled is the pivot of our activities.

### Health Care :

At Atmavallabh Hospital no one goes back totally untreated just because he has no money to pay. Cure from illness & prevention of diseases is given equal importance.

- ◆ Nearly 450000 people are examined, 200000 investigation are carried out, 50000 are treated & 30000 operations are performed in last two decades.
- ◆ Medical, Surgical, Gynecology, Eye & Dental services are given either free or at affordable cost to all round the clock.
- ◆ All our services are free of cost to BPL. ( Rastriya Swasthya Bima Yojana).
- ◆ Free general diagnostic camp is a routine activity.
- ◆ We provide free maternity services to BPL women under Chiranjivi Yojana.
- ◆ Our Blood Storage center provides safe blood at any odd hour.
- ◆ 80% of patients get free treatment or subsidy in hospital bills.
- ◆ Hospital provides full diet to patient & their relatives for just 10/- Rs.

### Operation theater is our place of worship.

- ◆ A team of surgeons perform such a wonderful job that in no time all lumps & bumps weather benign or cancerous are removed,
- ◆ Agony of cut or colic & inflammation or fracture goes away.
- ◆ A blind regains vision & a limp start walking erect.

### Mobile Medical Unit :

Government of Gujarat selected us to provide primary health care to the most remote villages of Khedbrahma & Vijaynagar taluka by 2 Mobile Medical Units.

- ◆ Since 15-01-12 each MMU provides services at fix place on fix day & fix time.
- ◆ It has a team of Doctor, nurse, pharmacist, laboratory technician & social worker.
- ◆ Every day one MMU deliver health services to 100 persons free of cost including medicines & laboratory investigation.
- ◆ 100 to 120 villages will be benefitted by this project.
- ◆ We also provide eye, dental & RCH services by specialist occasionally.

### : Eye Care :

Having realized the magnitude of avoidable blindness we established Eye clinic in 1997. It was recognized as Base Hospital in 2002. Our society became a founder member of "Vision 2020 : Right to Sight" Gujarat chapter & our Managing trustee Dr. Dinesh was selected as its Founder Trustee in 2005.

We launched project RACE to ensure the Right to Sight to the people of our area .

### Achivements :

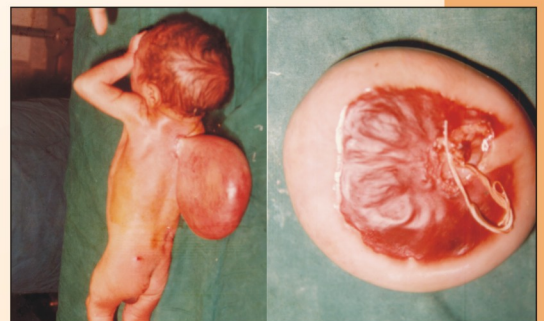

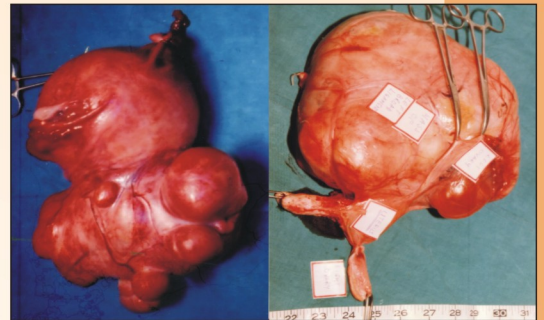

1. Eye examination & Cataract surgery is free for all on every Wednesday.
2. We have examined 82271 eyes & conducted 8179 cataract operations free of cost from 2007 to 2011.
3. Government appreciated our efforts to prevent blindness every year since 2007.
4. Non recurring grant of Rs. 2.5 million was sanctioned by state government under National Program for control of blindness (NPCB) in 2008-09.
5. Another 2.5 million rupees were added by our trustees and a well equipped Smt. Shantaben S. Kothari Eye Hospital was inaugurated on 27-01-08.
6. State government permitted us to conduct Diploma Ophthalmic Science in 2009.
7. A project to examine 100,000 eyes & conduct 12500 cataract operations free of cost in next five years is launched on 15-01-2012.

### In these years we realized that

- ➡ Sabarkantha district can become cataract free by 2020 but to make districts of Rajasthan Cataract free even by 2030 is a Herculean task.
- ➡ Correction of refractory error is generally neglected though it is easy, cheap & effective measure to prevent 20% of avoidable blindness especially in youth.
- ➡ Deficiency of PMOAs is one major cause of failure to control the blindness.
- ➡ Diabetic retinopathy will emerge as major cause of blindness in near future.

### So we have decided

- ➡ To include correction of refractory error as regular activity in rural camps.
- ➡ To extend our services to near by districts of Rajasthan.
- ➡ Establish sub centers at suitable places and mobile eye unit for wide coverage.
- ➡ To conduct the course of Diploma ophthalmic technology.
- ➡ Get prepared to detect & treat Diabetic retinopathy and glaucoma by 2020.

## : Nursing, Paramedical & vocational Education :

Skilled & Qualified Nurses & Paramedics are the backbone of Health care. Moreover they are scarce all over the world so to serve medical fraternity & provide employment to local youth we started **Government approved courses**. e.g.

- **Medical Laboratory Technician (1999)** (I.M. A. & Tech. Exam Board of Guj.).
- **Hospital Assistant & Technician (2007)** (Tech. Examination Board of Guj.)
- **Diploma Ophthalmic Technology (2008)** (H & FW Dep.Guj. FOREC-Delhi)
- **Health Sanitary Inspector (2008)** (GCVT & NCVT)
- **Auxiliary Nurse & Midwife-FHW (2009)** (Indian & Gujarat Nursing Council)
- **General Nursing & Midwifery (2011)** (Indian & Gujarat Nursing Council)

We plan to start Vocational Courses like Master in Social Works (MSW) computer Education, Front office assistant, accounting, banking & insurance in near future.

## Other Activities :

- ✳ We supplied Food & drinking water to the people and grass & water to cattle during famine of 1997, 98, 99 & 2000.
- ✳ Medical Aid, Relief material & tents during earthquake of 2001.
- ✳ Supplied Relief material in flood affected Kheda & Baroda districts in 2007.
- ✳ Distribute clothes to poor & calipers, crutches to needy off and on.
- ✳ Organize Artificial Limb, Wheel Chair & Tricycle distribution camp occasionally.
- ✳ **Our managing trustee is Founder President of Indian Red Cross Society (Idar).**
- ✳ Our society is active to Stop prenatal sex determination & female feticide, increase awareness against HIV/AIDs & Safe sexual behavior in adolescents & decrease maternal mortality & infant mortality rate.

## Future Programs :

- ✧ **Establish Blood Bank & Diagnostic Center in the hospital.**
- ✧ Establish sub centers to implement project SWAMAN to reduce MMR & IMR
- ✧ Tele medicine linkage, Animal Help line and Micro Health Insurance.

## From odds to achievements :

When begun our team consisted of only one doctor, five employees, nine trustees and few volunteers but clarity of thought & transparency in action, made more people join our movement & caravan grew.

- ❑ 1991-94 diamond merchants of bombay donated to construct hospital building.
- ❑ 1994-95 deciples of Guru Vallabh from N. India & Rajasthan donated for equipments.
- ❑ 1995-96 Japan Jain Sangh ( Kobe ) donated ₹ 5 Lacs as corpus fund to our chairman.
- ❑ 1997 Mumbai Jain Yuvak Sangh raised ₹ 15 Lacs as corpus fund.
- ❑ 1999 & 2001 NRI & NGO of USA donated ₹ 50 Lacs to Dr. Dinesh during his trip.
- ❑ 2004 NRI of Japan, Hongkong, Singapor donated ₹ 50 Lac to Dr. Dinesh during his trip.
- ❑ 2005-06 deciples of Guru Vallabh donated ₹ 22 Lacs for free eye operation.
- ❑ 2006-07 our own trustees donated ₹ 60 Lacs to construct new hospital building.
- ❑ 2008-09 Gove. of Gujarat sanctioned a Grant of ₹ 25 Lacs to upgrade eye hospital.
- ❑ 2010-11 our own trustees donated ₹ 100 Lacs for educational activities.

Today our team includes 10 full time & 20 visiting doctors, 25 paramedics & nursing staff, 12 teaching faculties and sufficient support staff. Moreover we have more than 100 dedicated members, 12 trustees & 32 patrons supported by hundreds of volunteers, well wishers and donors stretched all over the world.

## Financial Status :

In 1991 society was established from gratuity & P.F. of a retired teacher couple but continuous flow of selfless support of donors has enriched it. Increase in number of beneficiaries & maximum utilization of resources has helped us to bring our cost of service per beneficiary reasonably low even after paying enough remuneration to our employees. Moreover government aid & voluntary donation has enabled us to provide some of the services either free of cost or at highly subsidized rates.

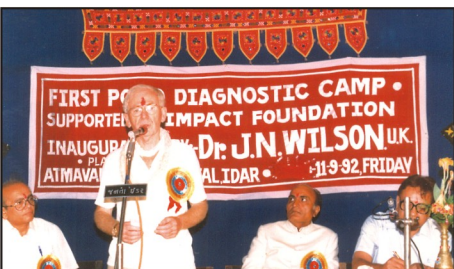

**Today VishvaKalyan society is a self dependent & steadily growing NGO.**

**Let play of circumstances not allow you to work in such remote area but please extend a part of thyself to strengthen our efforts to make them smile  
EVEN YOUR MITE IS OUR MIGHT**
